

## ABSTRACT OF THE DISCLOSURE

5 A hyper text display apparatus for displaying a  
hyper text document including a plurality of units of link  
information includes a link extraction section for  
extracting the plurality of units of link information from  
the hyper text document; a link information  
classification section for classifying the plurality of  
units of link information into a plurality of groups so  
10 that each group includes a prescribed number of units of  
link information; a display section for displaying a list  
of the prescribed number of units of link information  
included in a specific group of the plurality of groups;  
an assignment section for assigning a code to each of the  
15 prescribed number of units of link information included  
in the specific group, the codes assigned to different  
units of link information being different from each other;  
an input section used to input each code; and a reading  
section for, when a code is input through the input section  
20 while the list of the prescribed number of units of link  
information included in the specific group is displayed,  
reading a document at a target link associated with each  
unit of link information to which the respective code is  
assigned.
